### ELECTION RUMOR PURE IMAGINATION

EDMONTON, Aug. 31.—"Absolute-  
ly nothing to it but 100 per cent pure  
imagination," said Premier Green-  
field in regard to the report from  
Calgary that a general provincial

election is pending for November 8,  
when the liquor plebiscite is to be  
taken.

Such possibility, the Premier de-  
clared, has never been spoken of.  
The farmer members at their recent  
meetings have not discussed it, and  
there is no intention to complicate  
the coming vote in November with  
any content of the kind.

## CANADA'S MOTION BEFORE LEAGUE

### AMENDMENT TO ARTICLE TEN CAUSES DISCUSSION

Many Important Matters Come Before League of Nations at Its Fourth Annual Session

GENEVA, Aug. 31.—The Canadian amendment to Article 10 is one of the principal subjects before the Council of the League of Nations which today is giving final consideration to reports which will be submitted by the delegations of the League next week. Other questions covered by those reports include the Saar Basin, the free city of Danzig minorities, the covenant concerning the maintenance of territorial integrity of the member states, the armament reduction, including the recommendations of the temporary mixed commission as embodied in its first draft treaty of mutual assistance.

Meetings in preparation for the fourth general assembly of the league, which will be called to order on Monday, began today.

Geneva is already buzzing and bustling with excitement and activity occasioned by the arrival of the delegates of more than fifty nations who have been sent to take part in the discussions of the world's greatest forum.

The question in all minds is the question of what, if any, action will be taken on the Canadian amendment. The Frenchmen, it is said, will oppose any move which they believe would amount to dictation by the league. A question which is certain to arouse discussion on the floor is the method of electing council members. The council is made up of representatives of ten member states, with Great Britain, Italy, France, Japan and Canada having permanent seats.

The six permanent members at present are Belgium, Brazil, China, Spain, Sweden and Uruguay. The states of the Little Entente and the South American countries are clamoring for this right to be represented on the council, and the problem before the assembly is to find ways and means of making room for them.

### SUPRPLUS BUFFALO TO BE SLAUGHTERED

Two Thousand Animals at National Park to Be Killed—Too Many for Accommodation

OTTAWA, Aug. 30.—The Dominion of Canada has two thousand surplus buffalo, and they are to be slaughtered. The contract for the slaughter has been given by order-in-council to A. S. Duchesne of Edmonton.

The once-wanted members of a race of animals which had been showing signs of disappearance are now numerous on the large Caribou National Park at Wanwahiat. For some time the Dominion Government has been paying special attention to the preservation of these animals, and so successful has this work been that the accommodation in the park is being overtaxed. Two thousand of the buffaloes are to be slaughtered this fall, and the meat and skins sold.

### CHURCHES SEEK END OF UNEMPLOYMENT

LONDON, Aug. 31.—"Why are there so many unemployed wanta, yet so many idle handa?"

This is an economic query on the problem of unemployment put by representatives of churches of all denominations in a letter to the press with regard to the problem of bringing the employers who want help and the unemployed together.

The church representatives announced their plan that the conference will be held by the various religious organizations of London in October with a view to taking steps to bring pressure upon the government to take decisive action to remedy the unemployment situation.

"Unemployment," they say, "must be due to some grave defect in our social organization."

### REQUEST FOR WIDER POWERS DECLINED

LONDON, Aug. 31.—The request of Sir Herbert Samuel for wider powers in the administration of Palestine has been declined, according to the Cairo correspondent of The Daily Express.

The correspondent asserted that the Arab delegation had ascertained in official quarters that the British High Commissioner, while on leave in London, had asked the British Government to give him greater leeway, but that the Cabinet refused to extend his powers beyond those provided in the constitution for the Holy Land.

The correspondence asserted that the Cabinet refused to extend his powers beyond those provided in the constitution for the Holy Land.

### FORESTRY EXPERTS REACH THE COAST

Empire Delegates Will Spend Week Investigating Lumber Conditions on Island and Mainland

VANCOUVER, Aug. 31.—Vancouver, one of the world's great lumbering centres, is acting as host today to thirty-eight members of the Empire Forestry Conference, who have come to inspect at first hand the lumbering and forestry methods of British Columbia.

These experts from fifteen British Dominions, Colonies and Provinces, will also study the lumbering resources of Northern Ontario, the Prairie Provinces and British Columbia.

The question of unimpugned German sovereignty was not referred to in a discussion yesterday with a leading member of the cabinet, who permitted the inference that the problem of the Rhine would be left for subsequent solution.

ROME, Aug. 31.—Premier Mussolini, addressing yesterday a cabinet meeting reiterated his official attitude as previously expressed in regard to the Ruhr situation. Germany, he declared, must pay a precise sum in reparations, which should, however, be much less than the hundreds of millions of gold marks spoken of after the armistice—probably in the neighborhood of fifty billion gold marks.

Italy was ready, if necessary, to make sacrifices for the reconstruction of Europe, but she could not tolerate changes or modifications in territory that would impair her hegemony politically, militarily and economically.

The Premier reaffirmed his opinion that the reparation and internal debt questions were interdependent.

TOWN PLANNING IS  
CIVIC NECESSITY

Official Points to Need of Definite  
Programme If Well-Being of  
People to Be Assured

SHAWINIGAN, QUE., Aug. 31.—At the convention of the Union of Canadian Municipalities today, Mr. F. E. McLean, Commissioner of Works, Ottawa, delivered an address on municipal engineering problems. The first he pointed out was the happiness in which Canadian towns had been planning out in their beginning.

When planning might be defined as the scientific and orderly division of land and buildings in use and development with a view to obviating congestion and securing economic and social efficiency, health and well-being in urban and rural communities.

The next problem in municipal engineering was the systematic planning which should be able to analyze expenditures of every branch of the service and make careful calculations of detail costs. The last conclusion that overdrifts were largely due to inadequate data available from time to time to properly estimate on principles of diminishing returns.

To overcome this he advocated a system of accounting which should not only deal with general expenditures, but also with the unit costs of local improvements.

The cleaning of streets and removal of garbage, he thought, that pavement cleaning flushes along with "white wings" were the most effective and cheapest method.

KU KLUX KLANSMEN  
ATTACKED BY MOB

LONDON, Aug. 31.—Sir George McLaren Brown, European manager of the Canadian Pacific Railway, in a letter in the Morning Post, on Canadian land policy, says that the agricultural evolution of Western Canada lies in mixed farming, which calls for smaller and more numerous agricultural holdings than wheat growing does, and results in closer settlement and better communication. The bigger and more densely settled the rural population, the more social amenities there are, and greater advantages generally, he says.

Sir George adds: "The new colonization policy of the Canadian Pacific Railway Company, which already has expended over six million dollars for colonization, land settlement, irrigation and similar work, directly accounting for the occupation of over twenty million acres of farm land in Western Canada, is along these lines. Under the new plan of the C.P.R., farmers will now have a greater opportunity to be successful on their holdings and the Government and the company will be in a position to encourage prospective settlers to take up unused or uncultivated lands with benefit to all concerned."

Our Wine Prices

MONTRÉAL, Aug. 31.—Owing to the fall in the value of the franc, the Canadian Liquor Commission has reduced the prices of wines, particularly several brands of champagne. Increases are reported in whiskies and gins.

### GERMANY HOLDS TO RUHR POLICY

PASSIVE RESISTANCE CONTINUES  
TILL OCCUPATION ENDS

ITALY's Premier Reported as Favoring  
Cut in Amount of Reparations to Be Paid

BERLIN, Aug. 31.—Passive resistance in the Ruhr and the Rhineland will probably collapse the very moment the Germans are permitted to operate their railroad lines without molestation and when they are granted complete industrial and administrative freedom.

This broadly reflects the German official attitude on the subject and in the main reiterates the position outlined in Chancellor Stresemann's in his declaration before the Reichstag, which emphasized the principle of Germany's right to exercise the nation's official and private prerogatives in the interrupted areas.

The question of unimpugned German sovereignty was not referred to in a discussion yesterday with a leading member of the cabinet, who permitted the inference that the problem of the Rhine would be left for subsequent solution.

ROME, Aug. 31.—Premier Mussolini, addressing yesterday a cabinet meeting reiterated his official attitude as previously expressed in regard to the Ruhr situation. Italy was ready, if necessary, to make sacrifices for the reconstruction of Europe, but she could not tolerate changes or modifications in territory that would impair her hegemony politically, militarily and economically.

The Premier reaffirmed his opinion that the reparation and internal debt questions were interdependent.

## COMMENDS WORK OF BOYS' NAVAL BRIGADE

Capt. A. M. Davies Pays Compliment to Body Which He Examined for Prize-Worthy Acquisition

Commandment of the Intelligence and ability of the boys of the local Naval Brigade in the text of a letter received by P. A. Hayner, secretary of the Victoria branch Navy League of Canada. From Captain Allan M. Davies, examiner of masters and mates for Vancouver Island.

"Having been requested by you to examine such boys of the Naval Brigade as were eligible for the various prizes, I did so on July 13 last and am pleased to find that found the boys who presented themselves for examination were an exceptionally bright and smart lot of boys and a credit to their instructors. I had some difficulty in awarding the marks, finally selecting some half-dozen boys whom I gave a second examination before definitely awarding their marks."

"As a whole the boys are a smart, intelligent set and show the good effect of discipline, and will no doubt give a good account of themselves and prove an asset to the Canadian Navy or Mercantile Marine."

"Probably some of the boys will not take to the sea as a profession, but will make better citizens for their training in the Naval Brigade and consequently be a greater asset to the country."

"While at the camp I took the opportunity of looking over it and found a bright, happy and contented lot of boys, enjoying their few days under canvas, everything being kept in good shape and showing the good effect of discipline that without doubt will be available to the boys in their future career. Wishing the League continued success which it certainly deserves, I am, yours faithfully,

**VICTORIA'S EXHIBITION**

The annual exhibition of agricultural products opens today at the Willows, and does so under conditions which give good promise of an excellent fair. This year, we are informed, the entries are large and fully representative, and the experiment of holding the exhibition earlier than in previous years bids fair to add to its drawing power both in the matter of attendance and exhibits. No one works harder in connection with this annual exhibition than Mr. George Sanger, the secretary of the B.C. Agricultural Association, to whose enthusiasm the success of past events has been so largely due. He has been particularly active this year, and has secured attractions which there is certainty will command themselves very favorably to Victorians and the visitors in our midst.

This exhibition, more so than any other held in this section of the Province, is an indication of the agricultural progress being made on Vancouver Island. It is sufficiently well known to attract exhibits from outside points, and this is distinctly the case on the present occasion. As compared with last year, very greatly increased interest is added to the event by the horse racing to be held during its progress, commencing on Wednesday next. This feature of the fair will attract thousands who might otherwise be absent. Apart from the purely entertaining factors introduced to add interest, the exhibits are of a character and variety which are a credit to the organizers and will be a source of instruction to the public. The chief hope is that weather conditions will justify the holding of the exhibition at this time in September instead of during the latter half of the month.

**ITALY AND GREECE**

World opinion will be inclined to deprecate the wording of Italy's ultimatum to Greece and sympathize with the reply of the latter country. Italy is rightfully incensed over the murder of her representatives, and the Greek Government, by international usage, has to assume some responsibility for that crime. It is too humiliating, however, to expect Greece to accede to all the Italian demands. They are demands that Italy would not have dared to present to one of the Great Powers if such had been involved in similar circumstances. The situation that has arisen is obviously one in which Greece should appeal to the League of Nations and he determined in his attitude by what that body will decide.

The value of the League can be tested in this particular. If Italy forces the issue without reference to the League, the power and prestige of the latter in Europe will suffer a decline. Greece has refused to accede to certain of the Italian demands because she believes acquiescence in them is not consonant with her constitutional dignity. They are pointed to as infringing the sovereignty and honor of Greece. One of the three demands rejected does not appear to be of serious import, but Greece has doubtless reasons satisfactory to herself for her refusal. This is to the effect that the severest inquiry should be held by the Greek authorities at the scene of the massacre at which the Italian military attaché will be present. Probably Greece considers that would resolve itself into an investigation under pressure and interference which would derange her from her authority within her own realm. Another demand refused is that of capital punishment for all the guilty. The inference is that Greece considers she cannot allow another nation to prejudge the course of justice in her country. The other refusal is to the payment of an indemnity of \$50,000,000 Italian lire within five days. Since the perpetrators of the crime have not yet been proved to be Greeks the question of indemnity can well be left in abeyance, and in any case the sum sought appears exorbitant.

The circumstances growing out of the killing of the members of the Italian boundary mission on the Albanian frontier are not of a character which should threaten war these enlightened days. Italy's anger may be appreciated, but however automatic may be Premier Mussolini's powers within his own country, he cannot be permitted to apply the same autocracy in his dealings with other nations. The Great Powers in a sense must exercise a measure of guardianship towards Greece. They interfered to compose the differences existing between that country and Turkey. They have interceded again and again where the interests of Greece have touched those of other countries. Their course would appear to be plain now, and if they do not choose to follow it, then the remedy is to put the solution of the present international crisis

squarely before the League of Nations. Greece is willing to make ample reparation, according to the unwritten law of international usage, but she is not prepared to bow down to an ultimatum which appears to go well beyond what the circumstances demand.

**JOHNSON STREET BRIDGE**

There are a few matters in connection with the Johnson Street bridge which should be cleared up to the satisfaction of the ratepayers. In the first place, there is natural curiosity to know when this structure of dual variety will be completed. Secondly, the City Council should set at rest new rumors that have developed, the purport of which is that another appeal will have to be made to the property owners to sanction further expenditures on the structure. Then too, there is the question of what will be the total annual cost of the operation of this bridge. Many, if not all the difficulties and delays involved in the building of the bridge might have been avoided if a consulting engineer with bridge building experience had been called in at the outset. At least, he would have saved the city many thousands of dollars. He would have been able to look ahead and examine the undertaking from all its aspects, and estimate the cost accordingly. As it is, up to the present three separate money-by-laws have been before the people to provide funds for the structure because original and interim estimates were so much at fault. There is a possibility that more money will be required, despite assurances that every dollar needed is now available.

A consulting engineer would have been quick to assure the City Council that a bascule bridge was unnecessary for the short span of harbor to be covered. He would most assuredly have advocated contract instead of day labor on the construction of the foundational work. There have been such prolonged delays in the progress of building the Johnson Street bridge that it now becomes very apparent there never was any need for the overtime wages paid to employees who were engaged on the foundational portion of the structure. Even now we have no assurance whatever that the dual structure will be ready for all purposes during the present year, although such a promise was made. A clear and unequivocal official statement on the points raised should be made to the ratepayers. It is now, and on the eve of the next municipal election, that the people should be informed if there are sufficient funds available to finish the work.

It is estimated that a single green pea in Britain is worth 52 marks, or at pre-war exchange such a pea would represent in value \$2.12. Sixty pounds of peas, which are worth £1, would cost 4,000,000 marks in Germany. The fantastic reduction in the value of the mark would indicate there is no way of re-establishing national exchange save through the medium of prohibiting any further printing of the paper mark.

London underwriters have been offered from the United States a premium of \$30,000 if they will undertake to pay \$500,000 in the event of Mr. Henry Ford being elected President in November, 1924. The odds are, therefore, considered to be 100-6 against his chance. Private information reaching London is to the effect that his chance of nomination is small.

Prince Rupert has gone on record as opposed to a tax on gasoline. There is nothing like unanimity in the Province in favor of this impost. It would hit directly at those who are now the heaviest sufferers from taxation, as well as at the tourists, who, the hope is, will be induced to come here in ever-increasing numbers.

The Municipal Inspector's report makes a strong plea for retrenchment by the municipalities of British Columbia. This is in line with the motto of Mayor Hayward of this city, who has advocated "Economy until it hurts." Economy has been introduced here, but so far it cannot be said to have hurt in a municipal sense. There is more due.

Apropos of the report that a drug has been discovered in the United States which makes people tell the truth, much remains to be understood. The circumstances are changed, whatever may have brought that change about. The Americans are coming to us. They will have a pleasant time socially, and they will say pleasant things to their hosts. But it is business that is bringing them over here, and it is business that will be to their own advantage. Not that business cannot be made advantageous to both parties in a transaction. We hope in this case the advantage will be mutual, if anything is done at all.

Some Canadians are sceptical on this subject, because experience has shown that there is no guarantee of permanence in any treaty or arrangement that may be entered into with the United States. Congress is the ultimate source of power over there, and Congresses change their minds along with their complexion every second year or so.

Still, Rt. Hon. William Lyon Mackenzie King is a faithful friend of the United States. He also has great faith in the United States. He is determined to have an international conference. He is going to get it. All we can do is wait for the results, hoping for the best.

**Engineering Unions Are In Bad Plight**

LONDON, Aug. 31.—The engineering unions are practically penniless and losing members every week. There are 2 million men in the engineering trade in this country without prospects of bettering their condition, with no hope with nothing but despair in their hearts."

These words prefaced a speech here by John Muir, M.P., Socialist, who described the martyrdom of the engineers in the engineering industry capital as increased threefold during the war and the ensuing boom, and therefore triple profits must be made in order to pay the pre-war rate of interest on capital.

**"NOT SO MUCH A TAM FOOL"**

A man without a collar, wearing a white vest and holes in his elbow, walked briskly into a Congress Street grocery last Saturday with a package in his hand, and said:

"Here, Frits, I bought two dozen eggs yesterday, and I find your clerk made a mistake."

"Come here, Emil," shouted the grocer; "you had dim shantyman sheated dim nose rotten eggs. Gil him ein dozen more, und—"

"But you don't understand me," said the man, with a pleasant smile.

"The price is the same, my boy. The eggs are all right, but you have given me too many. I only paid for two dozen. And on Sunday I want to return the extra dozen, and I came back at once. I—"

"Emil," shouted the grocer again to the boy. "Give me another two dozen eggs at once. You had better him dim pad eggs. Don't you do dit any more times or I discharge you."

"But," said the man with the white vest, anxiously. "You gave me too many eggs for my money, and

**THE GOOD GREAT MAN**

How seldom, friend, a good great man inherits  
Honor and wealth with all his worth and pain!

I have seen many a man of spirit  
When any man obtains what he deserves, but  
Or any merit that which he obtains.

For shame, my friend! renounce this idle strain!

What would have a good great man  
Wealth, title, dignity, a golden chain,  
Or heap of coins which his sword hath slain?

Goodness and greatness are not meant, but  
ends,

Both he not always treasures, always loves.

The great good man? Three treasures—love,  
And calm thoughts, equal as infant's breath;

And those three friends, more rare than day or night.

Himself, his Maker, and the angel Death. —Samuel Taylor Coleridge.

UNDoubtedly the first shoe-makers who obtained anything like a general reputation were the famous brothers, Crispus and Cyprian, who were said to have lived in the Patron Saints Third Century. Of Shoemakers These saints have been regarded almost ever since that early time as the tutelary or patron saints of shoe-makers. They were born in Rome. After becoming converts to Christianity they settled in France. Octo-  
ber 22 is still kept in their honor in memory of English and Welsh shoe-makers in other European countries. The shoemakers in the districts turn out in large numbers and parade the streets, headed by bands of music and accompanied by banners on which are emblazoned the emblems of the craft.

Each year the brothers declare the brothers to have been of noble birth, and have adopted their humble trade entirely for Christian and charitable purposes. Another story relates that, to replenish their stock, and as a mark of divine favor, an angel came to them by night with supplies of leather.

PROVINCIAL GOVERNMENT SETS ASIDE SQUAMISH TRACT

United States Service Carrying on Investigations—White Pine Resources Threatened

The Provincial Government has set aside one hundred acres of timberland near Squamish for the United States Forest Service in carrying on investigations of white pine blister rust, becoming steadily more serious as a menace to North American forests.

Scouting parties representing the United States Forest Service have been in the wooded lands back of Squamish, and will continue carrying on research work. Under the arrangement the British Columbia Government will benefit equally with the United States from the data compiled by the investigators.

After a series of tests in many parts of the country the Squamish district was declared to be the most suitable of all for the carrying on of the experimental work. Negotiations were commenced by the United States Forest Service with the result that the Provincial Government set aside the tract, reserving the exclusive use of the tree experts.

"White-pine blister rust, a disease that affects all live needle (white) pines, was discovered during the Fall of 1921 to be present in the Province. On account of the lateness of the season, work could not be done that year, but a hurried examination established the fact that the disease was present on imported Eastern white pines in the neighborhood of Vancouver. No trace was found in the limited portion of the interior that could be covered."

The disease, known as the destroyer of white pines that has caused enormous damage in the Eastern Provinces and States should become prevalent among the white pines of British Columbia, caused considerable alarm. Action was at once taken by the Department of Agriculture to establish a quarantine against white-pine seedlings entering the interior from the Coast. The peculiar fact that this rust has an alternate host in the plants of the gooseberry and currant family made it necessary to quarantine all currants.

Plans were made for a complete survey of the Province in 1922. Beginning in April, on the Coast, the Forest Branch co-operated with the Dominion and Provincial Departments of Agriculture in scouting for the white pine blisters. Before the middle of the summer it had been found on white pines and currant bushes throughout the range of the white pine on the Coast, both on Western white pine and imported Western white pine.

The scouling has shown that the white pine blisters have secured a firm hold on the Coast, but have not yet been widespread in the interior. Another season's scouting will have to be done before the absolute extent of the disease east of the Cascades is known. If any, are deemed advisable, an Western white pine is one of the most valuable species in the Province, though not the most widespread, any effort possible to control the spread of this disease should be taken.

**Favor Across-Continent Telephone Trunk Line**

EDMONTON, Aug. 31.—The Dominion Government will be approached during the coming year by a committee of the Canadian Telephone Association to ascertain what assistance the government might be prepared to give the establishment of a transcontinental telephone line in the way of bridging the gaps over the Rocky Mountains and through Ontario.

This was decided at the closing session of the telephone convention here this morning when the committee in charge of the matter was instructed to see the Federal Government.

The next convention will be held in Winnipeg, J. P. Lowry, president of the Manitoba system, was elected president. The vice-president is W. H. Hayes, of the Maritime Telephone Company; the secretary-treasurer is John Delaney, of the Manitoba system, and the directors are: W. H. Winter, Bell Company, Montreal; E. F. Hellwell, British Columbia; H. E. Brockwell, Manitoba; W. R. Warren, Saskatchewan; W. F. Pease, New Brunswick; W. Winfield, Maritime Company, and R. B. Baxter, Alberta.

According to custom, Calvin Coolidge cannot escape the role. Any statesman with great responsibilities in hand is inevitably referred to at one time or another as a sphinx.—Washington Star.

## City and District

No Licences Needed.—The Oak Bay Council decided last night that the various stalls, etc., at the exhibition need not take out licences.

Permit Granted.—Permission to hold a tag day in Oak Bay on October 6 was granted the Social Service League by the Oak Bay Council last night.

Tax Sale in Week.—The Oak Bay tax sale will take place next Saturday. There are at present 147 parcels on the list, but it is expected that some of these will be redeemed.

To Install Street Light.—The installation of a street light at the corner of St. Louis and Byng Streets was authorized by the Oak Bay Council last night.

Only One Licence.—Grocers selling milk in sealed bottles obtained from licensed vendors will not have to pay a milk vendor's licence in addition to the grocery licence, the Oak Bay Council decided last night.

City Police Court.—John Stinson, a man about twenty-four years of age, was charged in Police Court yesterday with indecent assault. He was remanded, without the taking of evidence, until next Tuesday morning.

Letter is Filed.—A letter received by the Oak Bay Council recently from Mr. C. F. Robertson in regard to the care of oak trees was referred to the Works Committee, which in turn received and filed it.

Has Not Paid Taxes.—The Oak Bay Council was informed last night that one of the men who built a home under the Better Housing Scheme was delinquent in monthly installments in taxes to the extent of \$500. It was decided that the property go to the tax sale.

Fire at Sawmill.—Leigh's sawmill, at Point Ellice, was visited by another fire shortly after 3 o'clock yesterday afternoon, but the flames were extinguished by the fire department before much damage was done. A hole was burned through the roof of the boiler house.

May Submit By-Law.—A recommendation that the advisability of submitting a by-law by the ratepayers for the development of Oak Bay Park was contained in the Works Committee report adopted by the Oak Bay Council last night. The matter was not discussed at the meeting.

Garbage Question Again.—If the Oak Bay garbage was taken to the city garbage wharf and disposed of at sea, the cost would be \$7,700 for 4,000 cubic yards, or \$3,000 more than the present cost. Municipal Engineer Fowler has reported to the Works Committee of the Oak Bay Council.

An Ingenious Idea.—The possibility of collecting, under the heading of policing, from the B.C. Agricultural Association, the expenses of defending an appeal being taken in a case arising out of the first oilfield strike, was canvassed by Oak Bay, but the municipal solicitor reported against the plan.

Would Sell Property.—The Oak Bay Council last night received an offer from the Imperial Bank to sell the municipality 4.29 acres on top of Gorge Park for \$1,000. About \$900 in taxes owing on the property, which will revert to the municipality within a week unless redeemed.

Committee Meeting.—While no meeting of the Works Committee of the City Council was called for yesterday afternoon, the members, George Bannister, being busy at the fair grounds, three members of the Council put in an appearance at the Council Chamber, waited for a while, and then went their way again.

May Save on Estimates.—If present conditions continue, it is likely that the council will save about \$1,000 in the estimates for the outside departments for the year, according to a statement made to the Works Committee of the Oak Bay Council by the works superintendent, A.H. Machinery and plants not required in the immediate future is to be sold.

Picnics Restricted.—Regulations which were abolished during the war restricting to certain areas the keeping of pigs have been re-established by the Oak Bay Council. The Council last night decided that the hogs could not be allowed south of the southern boundary of Section 31 and east of the westerly boundary of Cadboro Bay Road. The by-law was put through all but the final reading.

Invitation Accepted.—The invitation of the Chamber of Commerce to hear the address to be given on the city manager plan by Mr. C. J. Yorath, Commissioner of Edmonton, Alberta, Wednesday evening, in the Chamber of Commerce auditorium, was accepted by the Oak Bay Council last night. "As many of us as possible should attend," declared Councilor Crease.

Conventions Reports.—Reeve F. of the Victoria Police Department, made another visit to several of the downtown clubs where beer is consumed by members, last night. It was his second visit in three days, and as in his former tour, he looked through various rooms and corners of the clubs. The purpose of club state that they are at a loss to understand the reasons for the visits. Members are served beer from their lockers and no pretense is made to conceal the fact, they assert. Each club is operating on the authority of a charter, which in each case is open to the inspection of all who care to look into it. The clubs are accompanied by one of the police commissioners who is interesting himself in the why and wherefore of the functioning of the clubs.

Losses Pearl Necklaces.—Shon Tuan, 41, Pingard Street, reported the loss, on behalf of Mrs. Dan Goon, now in

### WOMEN'S CANADIAN CLUB MEETS TUESDAY

The first meeting after the summer holidays of the Women's Canadian Club will take place on Tuesday afternoon at the Empress Hall, where the speaker will be Countess of Gladstone, who is in Victoria on a mission connected with the war orphans of France. This meeting will gain additional interest through the soloist, Miss Winnifred Bell, who won the gold medal in competition at Massey Hall, Toronto, last year, and who is shortly leaving to make her home in Vancouver.

**Port Alberni Visitor**

Miss Bell Patterson arrived here a few days ago from Port Alberni, and is the guest of Mr. and Mrs. Wicklow, coming from Wicklow, Ireland, about one month ago. Mr. and Mrs. Kent intend taking up their residence in Cumberland in the near future.

**Children's Garden Party**

A children's garden party was held on the lawn at Mrs. T. H. Mumford's residence, Maryport Avenue, on Tuesday last. Games occupied the children for the greater part of the afternoon, after which refreshments were served. Amongst them present were noticed Margaret Robinson, Lily Leverdesse, Madge Bryan, Rhoda Walton, Muriel and Margaret Short, Cumberland; and Marguerite Lowe and Kathleen Brown, of Victoria.

**As British M.P.**

Letters and newspaper clippings received from England indicate that Mrs. Mary Ellen Smith, M.P.P., who is in Great Britain on colonization work for the Dominion Department of Immigration, is accomplishing much in the way of publicity for British Columbia. The press is devoting columns to her activities and utterances, to her career. Her picture is appearing with great regularity in the illustrated periodicals, and much of the comment centres on the fact that she was one of the first women to be elected to parliament in the British Empire, and the first woman to have attained rank.

Her speeches indicate that she has no opportunity of speaking good words in behalf of British Columbia, while her personality and the story of her career bring this Province much into the limelight.

**Left for Victoria**

Mrs. Epperson and son Jack left on the Maquinna for Victoria, after spending a pleasant holiday here, the guests of Mr. and Mrs. Janet.

**On Vacation**

Mr. John Orstrom left on the Maquinna for Vancouver on a short vacation.

**Resume Meetings**—The Women's Liberal Conservative Club, which during the months of July and August cancelled all meetings, is resuming its work for the Fall. A meeting has been called, therefore, for Tuesday evening at 8 o'clock in the Liberal-Conservative Club rooms in the Campbell Building. It is desired that a full attendance of members should be present.

**Le-Jacklin**  
The marriage was celebrated in Seattle on Thursday of Edna Bell, second daughter of Mr. and Mrs. Thomas Jacklin, of Tacoma, and formerly of this city, and Mr. James Lee, of Springfield, Ohio. The bride, unattended, looked very pretty in a gown of dove crepe de Chine with which she wore a picture hat. After a honeymoon to be spent in Portland, Mr. and Mrs. Lee will make their home in Springfield, Ohio.

**Green-Couzens**  
At "Green-Couzens" on Thursday evening a quiet wedding took place when Major the Rev. Dr. Campbell celebrated the marriage of Mr. Charles Newton Green, of this city, and Miss May Couzens, who arrived from England last Monday. The bride was handsome in a travelling suit of olive green gaberdine with hat and white gloves. The bridegroom was accompanied by groomsmen by Mr. Albert Alfred Allan Sabiston and Mr. Harry Mountain. Mr. and Mrs. Green will make their home in Victoria.

### COMING EVENTS

**James Bay Methodist Church**—The services for tomorrow at the James Bay Methodist Church revert to the usual hours, with public worship at 11 a.m. and 7:30 p.m., and Sunday School in the afternoon beginning at 2:30 o'clock.

**Labor Day Picnic**—The First Congregational Church picnic will be held on Saturday, September 1, at 8:30 a.m. and morning prayer and sermon at 11 o'clock. Divine service will also be held in the Langford school, by courtesy of the trustees, at 3 p.m. A cordial invitation is extended to all.

**Coldwater Services**—At St. John's, Coldwater, on Sunday, there will be a celebration of the holy communion at 8:30 a.m. and morning prayer and sermon at 11 o'clock. Divine service will also be held in the Langford school, by courtesy of the trustees, at 3 p.m. A cordial invitation is extended to all.

**Grand Smoking Concert**—On Monday night a grand smoking concert will be given by the sports committee of the Canadian Legion at 8 o'clock in the Canadian Legion Hall. All ex-service men and their friends are invited to attend, and a special program will be arranged for the evening. Miss Harris will play the accompaniment.

**Cathedral Services**—The Right Rev. Herman Page, D.D., Bishop of Spokane U. S. A., will preach at tomorrow night's service in Christ Church Cathedral at 8 o'clock. A choral communion service will be held at 11 o'clock on Sunday morning, when the Bishop of Spokane, the Right Rev. C. D. Schenck, will be the celebrant. The Dean will preach at the morning service.

**Serving Tea at Fair**—The Women's Parish Guild of Christ Church Cathedral will be in charge of the tea room in the Women's Building at the fair in the Willowes exhibition grounds next week. The tea room is situated on the second floor of the Women's Building, next to the Arts and Crafts exhibit. Tea will be served each afternoon from Monday to Saturday, and light refreshments in the evenings. As the ladies have undertaken this work in the hope of increasing their contributions to the Cathedral parish,

the end. Again, we see her arriving at the old hall at Sandringham as the "Squire's" bride, and in the little village church she partook of her first English communion on the East-day following her marriage. In the afternoon, when she had settled, she began her wonderful reign at Marlborough House as Princess of Wales, leading society in place of the sorrowing Queen and performing innumerable public duties with tact and charm, and always ready to respond to the call of the suffering and needy. She has lived before the eyes of the world as a devoted wife and loving mother, creating a beautiful home life around her. Nowadays, grandchildren and great-grandchildren brighten her widowed condition at Marlborough House and Sandringham. For the comparatively brief interval of barely ten years—1901-1910—Queen Alexandra's influence on the Queen Consort at Buckingham Palace was also full of anxious care regarding King Edward's health after his nearly fatal illness on the eve of the Coronation. This was the second time she had seen her husband at the gate of death, and helped to nurse him to life again. Now, in the evening of her peaceful life, after her days of regal triumphs, interwoven with personal sorrows, Queen Alexandra lies in British hearts as the Queen Mother. She delights to gather her family and her friends around her at Marlborough House and Sandringham, and is still as playful as of yore amongst the children. She retains her keen interest in the various institutions which have enjoyed her patronage, particularly the nursing services and the children's hospitals. Especially does Queen Alexandra delight in bringing joy and happiness to those who are in pain. She enjoys today great elasticity of mind and spirit and keeps thoroughly abreast of the times, interesting herself in all public events.

### SIX-CYLINDER ROVER CAR

Whenever a motor car manufacturing firm of importance announces a new model car, considerable interest is always aroused, and such has certainly proved the case with the recent announcement of the Rover Co. Ltd., of Coventry, England, that they will market during 1924 a limited number of a new six-cylinder model car. The famous 12-h.p. four-cylinder Rover will be continued, as will the popular eight-h.p. two-cylinder air-cooled model.

### McCarthy and Dickens

This, in any case, was felt by Justin McCarthy, for he has related that his first glimpse of the lovely face of the then Heir Apparent in this country caused him to exclaim, "The Princess of Wales has permitted the nation to love her." The great actress touched the right note, and it has been re-sounded throughout the Empire more and more with the passage of time; it being noticeable that at every public appearance of King George's mother there are popular demonstrations of love and affection. In the early part of the year 1903 at the gates of the Queen Consort at Buckingham Palace, a slim, slender girl of 19 whose striking beauty had been so loudly trumpeted abroad that some disappointment might have been anticipated—if things had not materialized as forecasted.

## AUSTRALIAN CAPTAIN BEATS BILL JOHNSTON

United States' First String Goes Down to Defeat in First Singles Match in Davis Cup Tennis Challenge Round—Tilden Evens Up by Defeating Hawkes Easily

**F**OREST HILLS, N.Y., Aug. 31.—Proving an unexpectedly formidable menace to America's tennis supremacy, Australia's Davis Cup challenging forces broke even with the United States today in the two singles' matches, marking the opening of 1923 play for the historic trophy that carries with it the emblem of world's team champion.

JAMES O. ANDERSON  
captain of the Australian Davis Cup team  
which has beaten the United States in the first singles match in the challenge round for the trophy.

### VANCOUVER RACING

**T**OMORROW Hawkes and Anderson will face Tilden and H. Norris Williams, American captain, a new international combination, in the third match, while on Monday Tilden will play Anderson, and Johnston will oppose Hawkes in the remaining singles matches. Thus the winner cannot be determined before Monday, and should Anderson win the dashing pair displayed today, the bid of the Antipodeans for victory will be no less powerful than it is determined.

Taking rank among the epics of Davis Cup history, the Johnston-Anderson battle thrilled a colorful gallery of about 10,000 fans that filled close to capacity the big new stadium of the Westside Tennis Club. But though Anderson flashed to his best after winning the first three sets, his victory, in the opinion of the experts, was due no less to his own brilliance than the fact that Johnston for the most part fell far below his usual standard of play. Both players were astern, brilliant and spectacular as they fought point for point, but in the end Anderson's superior stamina and greater accuracy at crucial moments prevailed.

**Met His Match**

From the start Johnston lacked the deadly control that has marked his brilliant career. His booming forehand shots carried their usual power, but lacked the relentless accuracy of old. And as Anderson, matching drive for drive, returning Johnston's swiftest forcing shot with even greater speed, carried the attack to his opponent, the American was won handily over Millie Erne, who nosed out Sweet and Low for show.

### Summary of Results

## BUSY SEASON ON MONTREAL LINKS

### NEARLY THREE WEEKS OF CHAMPIONSHIP GOLF

**C**anadian Seniors, Ladies' Golf Union and Canadian Ladies Open Events Follow in Succession

MONTREAL, Aug. 31.—Almost three weeks of championship golf is to start here Saturday, Sept. 6. From then on will be staged here the Canadian Senior Golf Association's tournament (from September 6 to September 8), the Canadian Ladies' Golf Union second close championship (from September 10 to September 14), and the Canadian ladies' open tournament (from September 17 to September 22). The first two tournaments will take place at Dixie over the course of the Royal Montreal Golf Club, and the ladies' open over the Mount Bruno course. These tournaments conclude the busiest golf season ever enjoyed by Montreal, as the Canadian senior golf championships were played at Royal Montreal.

Since the senior men's tournament was inaugurated in 1918, the championship has been won each year by George S. Lyon, the Lamington amateur champion. The annual international match between teams representing the Canadian Seniors and the United States Seniors on the cup given by the Duke of Devonshire when Governor-General of Canada, takes place during this tournament. So far the United States representatives have won the trophy every year except 1919.

### Closed Tournament

The Canadian ladies' closed championship flight eals for a qualifying medal round of 18 holes, and the annual handicap and club team matches over the same route. On September 11 will take place the first round of the ladies' open championship, the thirty-third being gross scores from the handicap matching entering it, and the driving, approaching and putting competitions. For the rest of the week survivors in the various rounds will fight it out for the honor of competing in the championship final on Friday, September 14. Mrs. Helen Gibson, Bell, won the women's open championship last year. This year will be seen playing: Mrs. Gibson, Miss Ada Mackenzie, champion of Ontario; Miss Sybil Kennedy, Montreal; Quebec champion; Miss Sidney Pepler, Toronto champion, and Miss Helen Page, Ottawa champion, and four well-known Wimpey players, Mrs. Harold Hutchings, Manitoba champion; Mrs. K. C. Allen, Mrs. Irene Bridges and Mrs. R. K. Bearstall. The annual championship of the Women's Senior Golf Association will be played at the Royal Montreal on September 13. Eighteen holes at medal play comprise this contest.

For the ladies' open the international flavor which has marked the tournaments for some years past is expected to be maintained, though nothing definite as to entries from the United States and Great Britain has been forthcoming to date.

Arthur Little gave his backers a shock in the first race, when he bore to the extreme outside of the turn for home after drawing a lead of nearly three lengths. Broadfoot squared him away in plenty of time, however, and won handily over Millie Erne, who nosed out Sweet and Low for show.

### KELOWNA SPORTSMEN ARE DISSATISFIED

**R**ecommendations Made to Game Board Not Acted Upon—Decide to Write Again on Subject

KELOWNA, Aug. 31.—At a meeting held by the executive committee of the Kelowna Fish and Game Protective Association the secretary read a copy of a letter addressed to the secretary of the Game Conservation Board which had been forwarded to that office by the Penitentiary Association for its views to what regulations should be put into force this season, no notice whatever had been taken of the recommendations sent by the association.

The reading of this letter led to a discussion, but the executives were unanimous in the opinion that the latter presented in very strong terms that, in spite of the efforts of the Game Conservation Board had not met the Penitentiary Association's desire for this part of the interior, the only plan would be to write the game board once again and see if, even at this late hour, the new regulations could not be altered, especially regarding the pheasants, which the Kelowna association had been instrumental in getting passed.

Both games will be played on the Central Sports Grounds at 5 p.m. Mr. Jas. Quinn will referee Saturday's fixture, while Mr. M. Guhnus will handle the whistle on Labor Day.

**YESTERDAY'S RESULTS IN NANAIMO TENNIS**

NANAIMO, Aug. 31.—The Nanaimo City Football Club will not have their team enter in the competition at St. Andrew's, of Vancouver, in a game on Saturday afternoon, as one with Tacoma, Wash., on Monday (Labor Day). Routledge, their goalie, is away on a visit to Trail, B.C., and Husband is unable to play owing to injuries received in a Winnipeg game.

Stevens will field a strong team, however, and Stevens and are giving a tryout in the centre forward position to Stevens, who plays last season with Wigaboro in the English League. The team picked to meet St. Andrew's tomorrow is as follows:

Goal: Hughes; full-backs, Lynn and Bell; half-backs, McMillan and Stobart; forward: Edwards, Minns, Dickinson, Stevens, Appleby, and Fowler.

Both games will be played on the Central Sports Grounds at 5 p.m. Mr. Jas. Quinn will referee Saturday's fixture, while Mr. M. Guhnus will handle the whistle on Labor Day.

## GAME REGULATIONS ARE ALTERED AGAIN

**Open Quail Season Cancelled—Grouse  
May Be Shot in Highland District  
—Deer Season Lengthened**

Final regulation of game regulations in preparation for the opening of the season was made yesterday by Attorney-General Manson, and put through by Order-in-Council.

Under this order the open season for bear and moose in the Cariboo district starts on September 1, instead of September 15.

The open season for California quail is cancelled in Cowichan, Esquimalt, Saanich, Nanaimo, Newcastle and the Gulf Islands, with the exception of Saturna Island.

Season for shooting grouse only in the Highland district, Victoria Island, will open on September 15, and run until December 15, instead of ending on September 30.

Grouse shooting will be open in the Highland district from September 15 to September 30. Willow grouse will be open in the Highland district from December 1 to December 15.

Quail bag limits in the Similkameen and South Okanagan are raised from fifty to 100.

Cock pheasant shooting season in the Eastern district of the Province will open on October 29 and run until November 11, instead of until November 17. Open season for cocks on Salmon Arm will be from October 20 to November 2.

### League Games Today

The English League games this afternoon are in the nature of return engagements—that is to say, the clubs that met last Saturday will again be in opposition, with the grounds reversed. The matches are as follows:

Aston Villa vs. Birmingham. H. St. G. Steepney and H. Finlayson (South Cowichan) defeated W. E. Christmas and F. R. Gooding (Duncan), 8-6, 6-0.

F. L. Kingston (South Cowichan) defeated Lomas (Duncan), 6-2, 6-0. H. Finlayson (South Cowichan) defeated W. R. Smythe (Duncan), 6-3, 6-1.

Curtis Hayward (South Cowichan) defeated O. T. Smythe (Duncan), 6-3, 6-2.

C. C. Lundie (Duncan) defeated H. C. Mann (South Cowichan), 6-8, 6-2, 6-3.

J. Longbourne (South Cowichan) defeated F. R. Gooding (Duncan), 6-2, 6-1.

**Men's Doubles**

H. St. G. Steepney and H. Finlayson (South Cowichan) defeated W. E. Christmas and F. R. Gooding (Duncan), 8-6, 6-0.

F. L. Kingston and H. C. Mann (South Cowichan) defeated W. R. Smythe and Lomas (Duncan), 6-4, 6-2.

Curtis Hayward and Longbourne (South Cowichan) defeated O. T. Smythe and C. C. Lundie (Duncan), 6-2, 6-4, 7-5.

**Mixed Doubles**

Mr. and Mrs. W. E. Christmas (Duncan) defeated Miss Geoghegan and F. L. Kingston (South Cowichan), 2-6, 7-5.

Miss Hayward and Lomas (Duncan) defeated Mr. and Mrs. Finlayson (South Cowichan), 6-8, 6-4, 6-2.

J. Longbourne and Curtis Hayward (South Cowichan) defeated Mrs. Gooding and O. T. Smythe (Duncan), 6-3, 6-2.

Miss Robertson and W. R. Smythe (Duncan) defeated Mrs. Walby and Steppen (South Cowichan), 1-6, 5-7.

Mrs. Tagg and H. C. Mann (South Cowichan) defeated Miss Dawson and C. C. Lundie (Duncan), 6-2, 6-4, 6-2.

Miss Wilson and F. R. Gooding (Duncan) defeated Mrs. Lipcomb and Longbourne (South Cowichan), 3-6, 6-3, 6-4.

## COLWOOD GOLF

There will be a tombola competition for members of the Colwood Golf and Country Club on the eight links today. The competition will be over eighteen holes with full handicap allowed, with entrance fee of fifty cents.

An eclectic competition will be played during the month of September. Members entering will be allowed to take out as many cards as they please. Entrance fee will be fifty cents.

## No Funds of Home Bank Utilized for Chester Syndicate

MONTREAL, Aug. 31.—When asked whether the Home Bank had advanced money toward financing the Chester syndicate which will develop Turkey, C. A. Barnard, K.C., who represents the Canadian interests in acquiring the concessions, today said: "Not a dollar."

Mr. Barnard said his interests have the right to take control of the concessions, but as to whether they would exercise their option or not he was not prepared to commit himself just now.

## Heavy Scoring

In two of the Southern Section (Third Division) games on Wednesday there were many goals registered. Portsmouth had a field day against Newport County and won by 8-0. Coming so soon after their win at Plymouth, the Portsmouth team is evidently out for promotion. At the start of last season they played quite a number of games before they lost a goal, but once the citadel fell the team lost its hold on the "upper reaches" and finally finished seventh on the table.

**Swansons Work**

The other heavy scoring game on Wednesday was at Reading, where Swansons won, 4-3. Seven goals in a game must have provided the onlookers with lots of thrills.

But Swansons are noted goal-getters. Last season they obtained 73, which was the highest total in big league football, including the Cup.

The nearest approach was Cardiff City with 72; Sunderland, 72; Liverpool, 70; and Queen's Park (Glasgow), 73.

## In And Scotia

Unlike their English friends, the Scottish League clubs do not play their return games each succeeding Saturday, instead they believe in a judicious mixture.

There are eight games on the card today: Rangers, Clyde, Queen's Park and Third Lanark are engaged in Glasgow Cup ties, hence the curtailment of the league programme.

Perhaps the most important league game today is that between Aberdeen and Dundee. This is always regarded as the "Northern Derby," because rivalry between the two cities is of the keenest description—not only in

the football.

Do not barrack a visiting player. Many a game has been lost by an opponent being goaded into playing a desperate game.

The one-back game may be tantalizing, but it is legitimate.

Let justice be done, let justice or otherwise of many a decision depend upon the angle at which it is seen.

And, above all, let the point of view be one of charity.

## Lying in the Grass

I do not hunger for a well-stored mind, I only wish to live my life and find My heart in union with all mankind.

My life is like the single dewy star That trembles on the horizon's primerose-bar—

A microcosm where all things living are.

And if, among the noiseless grasses, death Should come behind and take away my breath,

I should not rise as one that sorrowed;

For I should pass, but all the world would be.

Full of desire and young delight and glee,

And why should men be sad through loss of me?

The light is flying; in the silver-blue,

The young moon shines from her bright window through;

The mowers are all gone, and I go too.

—EDMUND GOSSE.

## BRITISH ENGINEERING SUCCESS

At the International Industrial and Agricultural Fair held at Fesival in June, the award of a grand gold medal was made to John I. Thorneycroft & Co., Ltd., for their exhibit of a Thorneycroft 75-9 b.h.p. marine engine.

This model is the latest addition to the very comprehensive range of Thorneycroft marine engines, and is especially suitable for the lighter types of motor boats, fishing craft, etc. It has already made a reputation for reliable service amongst boat-owners in Great Britain and abroad, which will be further enhanced by this high tribute to the excellence of its design and workmanship.

About fifteen per cent of the animals caught in steel traps escape by chewing off their legs.

## GYMKHANA OFFERS MANY ATTRACTIONS

Number of Novelties Included in Today's Programme at the Willow Track

Some unusually attractive features have been included in the programme of today's gymkhana, which will be put on at the Willow Track by the Victoria Riding and Polo Club. One of the chief items of interest will be the steeplechase, for which some high class entries have been received. Among them are Calidor II, owned by Major McLean, of Vancouver; Glandamore, owned by Mr. T. G. Colgan, and Asterina Mint, owned by Mr. J. W. Russell, also of Colgate. Among the locally owned chasers entered are J. Rogers' Tivoli and Lucifer, Captain Heist's Beauty, Colonel Greer's Thief, E. Eve's The Ghost and Major Brock's Rambler.

Mr. Welch will exhibit his famous high-class riding, Mr. W. W. known to equestrian fame as "Strawberry Red," will give an exhibition of Roman riding, which it is claimed has never been previously seen in any part of the world.

## NATIVE SONS' GALA DAY PICNIC

Canadian-Born and Their Friends  
Will Have Big Outing at Mount  
Douglas on Monday

The committee in charge of arrangements of the big gala day picnic to be held at Mount Douglas on Monday by the Native Sons of Canada and their friends at Mount Douglas Park reports that all is now complete, and those who are fortunate enough to attend are assured of a sports programme that will include many amusing novelties.

It is the intention of the Native Sons to preserve the real Western Canadian spirit. From the time that Chief Rain-in-the-Face descends the mountain side in war costume and is subdued and made a brother in open-air initiation till the strains of the home waltz are heard in the late evening, the Sons will enjoy a real festive day.

For those wishing to compete for the prizes awarded to surviving comic characters, judging of which will precede the grand march at 7:30 p.m., the committee has arranged to have dressing-room tents with mirrors, so that they will be able to make-up on the picnic grounds. The grand pageant will commence at 1:30 p.m. and will be followed by the sports programme of the day.

There will be a grand tombola with four prizes. First prize, easy chair, donated by Weiler, Ltd.; second, one-half ton of coal, donated by King-Hill Co.; third, a dozen goodie bags, sack of flour, donated by Vancouver Milling Co. All sports prizes of the day will be in the form of script donated by members and friends. No tickets or invitations are required; the public being exhorted a hearty welcome. Tickets will be sold at the corner of Johnson and Douglas Streets at 1 p.m., and门ey ears at all hours. Those attending are asked to bring blankets. Hot water and milk will be supplied.

**As Youth Understood**

From an examination paper in an English school:

"An optimist is a man who looks after your feet; a pessimist looks after your feet."

"The wife of a duke is a ducky."

"A circle in a line of no depth running round a dot forever."

"Millennium is the belief of the Freemasons."

**Very Irish**

An Irish gentleman was astonished to receive the following letter from his son in London:

"Dear Father—I am in a deuce of a hole. Kindly send me 10, and oblige. Your loving son, Pat."

"P.S.—After writing this letter I was so stricken with remorse that I ran after the postman and tried to get him back. I can only pray that it will not reach you."

"But who could be more astounded than the son when he received his reply:

"Dear Son—Your prayers are answered. The letter did not reach me, Father."

Storm Does Damage

PARIS, Aug. 30.—Much damage and dislocation to communications had resulted from the wind storm which swept Western Europe over the English Channel and the North Sea coast. A naval squadron engaged in firing exercises was obliged to put into Morsat. Many fishing boats were sent adrift and one was wrecked outside the entrance to Bologna, but the crew was saved. One hundred and fifty hatching hens at Havre were swept away.

### "HUMAN PUPPETS" AT PANTAGES TONIGHT

Countess d'Audiffret Presents Entertainment in Aid of War Orphans of Victoria and France

This evening Countess d'Audiffret will present at Pantages Theatre "Human Puppets—Grave and Gay," which will undoubtedly be one of the most successful productions of the season.

The programme has received the greatest attention. Countess d'Audiffret has been aided by the Canadian Legion, and the proceeds from the show will be devoted to war orphans in Victoria and France. As the entertainment is being offered for one night only, and as the very best local talent has been secured for the occasion it is anticipated that Pantages will be crowded to capacity this evening.

One of the outstanding events of the performance will be a spectacular tableau, "The Homage of Canada," in which the following ladies will take part: Mrs. W. H. H. Hays, as Britannia; Miss B. M. Pemberton, as Canada; Mrs. Dugald Gillespie, France; Mrs. Willi Spencer, Belgium; Miss Vivian Mateo, Italy; Mrs. Chas. E. Wilson, America; Miss Kitty Campbell, the Goddess of Peace; Miss Charlebois and Miss Wanda Spencer, as two cheubs.

Admission—Major Sills and Anna Q. Nilsson in "The Spoilers," starring Pauline Starke and Pat O'Malley.

### AMUSEMENTS

**The Screen**

Capitol—"Sporting Life," featuring Ralph Graves.

Columbia—Mary Miles Minter in "The Trail of the Lonesome Pine."

Dominion—Milton Sills and Anna Q. Nilsson in "The Spoilers."

Royal—"My Wild Irish Rose," starring Pauline Starke and Pat O'Malley.

Under his direction, as he is considered the best in the business. Therefore his engagement to direct this production is that the best character artists available are engaged for the production. As his assistant director remarked: "David Smith is a director with a heart. He has a wonderful home life and brings the atmosphere of his home onto the screen."

**PALL MALL GAZETTE  
PRAISES FEATURE AT ROYAL ON MONDAY**

The story of "A Royal Divorce," which we had the pleasure of reviewing at the Alhambra Theatre yesterday, is a beautiful photoplay. The story, "A Royal Divorce," is well known to all young alike, and we are quite confident that the public will fall over themselves to see it and will be more than satisfied with what they see. Humor plays a great part in the historical side of this production, but, of course, that does not really matter; the picture is the thing, and as a picture we have no hesitancy in saying that it is really excellent.

Twenty-four members of the Arion Club will sing a special number this evening.

"Sister of Mercy and Knight of Destruction," a play from the pen of Countess d'Audiffret, who plays the leading role under the name of Raoul Ralph, rounds out the exceptionally interesting programme. A large cast is included in the last turn, which is charming as it is original.

**DOMINION** Rex Beach's story of THEATRE the Klondike gold rush.

"The Spoilers" has lost none of its glamor, none of its vividness and none of its drama in the years that have passed since it was written, and that have passed since it was first put upon the screen ten years ago, by Colonel Seig. The new version is directed by Mr. D. Smith, with Lamberts Hillier as director. The show was last night at the Dominion Theatre, and it held the big audience completely in its grasp.

The man who directed the production is on a bigger and more spectacular scale than was the original, as was to be expected, seeing how rapid the progress and technique of the motion picture have been, and the great fight staged between the hero and the villain surpasses that of a decade ago.

"The Spoilers" is a true picture of life in the Klondike gold rush, and the attempt of certain unprincipled adventurers to jump the claims of the early miners. It's story is gripping, full of thrills, and full of red-blooded Americans. The picture is one of the best made in recent years, and there is no doubt that it will repeat the big success of its first screen incarnation.

**COLUMBIA** He stakes all of his THEATRE wealth in a promising vein in the Columbia mountains and finds that this "mine" is but a pocket. Such is the unfortunate lot of Antonio Moreno, a featured player, along with Ernest Torrence, in the Paramount picture, "The Trail of the Lonesome Pine," starring Mary Miles Minter, which will be seen at the Columbia Theatre today for the first time.

An excellent picturization of the popular novel by John Fox, Jr., which was directed by Charles Maigne, the man who directed Miles Minter in several of her former successes, among them, "The Cowboy and the Lady," and "Drums of Fate."

**CAPITOL** The buraboo that PRIDE day is an unlucky day does not alarm Maurice Tourneur, producer of "Sporting Life," the great Paramount-Artcraft special picture which is being exhibited at the Capitol Theatre for the last time today. The picture was begun by Mr. Tourneur on Friday, its biggest scenes were photographed on Friday, it was finished on Friday, and when it was presented for the first time in public at the Rivoli Theatre, New York, on September 15, 1918, it proved to be a great success.

The actual finale of the pageant was the private sketch ground in Arden Park, with the historic chateau dominating the scene, flanked by groves containing some oaks centuries old. The splendor of the spectacle was enhanced by brilliant sunshining favoring all four days of the presentation.

The central episode of the great drama finds the young Earl of Arden jousting before Queen Elizabeth. It was a picture eclipsing all the other scenes. This was preceded by a medley of Elizabethan songs, and the guests entered to the strain of Byrd's "Sister of Love."

Now comes the knight marshal of the lists, personified by a pale countenanced young Duke of Norfolk, mounted on a dappled grey steed and clad in a doublet of blue velvet splashed with silver stars, and a golden cloak.

The first episode concerns Roger de Gomerio, the Norman Earl of Arundel, who came to England in 1070 to claim Arundel Castle as his reward for services in the Battle of Hastings. Then the time advances to a meeting between King Stephen and the Empress Matilda to agree that Stephen shall remain on the throne and Matilda's son Henry shall become his successor.

Two hundred years elapse, and Edward II enters to the accompaniment of "Sumar le Jeunen In," the earliest English song on record, beautifully rendered by a choir. At Edward's command Morris dancers prance to jester's labor.

In the action representing the siege and capture of Arundel castle by the Cromwellians two of the cannon used by Cromwell's troops figure in a mock battle.

Toward the end of the scene depicting the festivities at the opening of the tournament in the castle, three days before the battle of Waterloo, Napoleon is burned in effigy.

But the concluding scene is the most impressive and picturesque, with its climactic introduction of the ghosts of former Earls of Arundel, who come trooping in headed by the Great Roger de Gomerio, William of Almain, Richard of Gloucester, Philip Howard, Thomas Howard and Charles Howard, Earl of Norfolk.

With the pageant players all grouped around, this was a dazzling show. Into a space left in the midst rides the present boy Duke, latest heir to line that has survived since the days before the Norman conquest—New York Herald.

**GIBSON IN BOND STREET**

If you draw a line down Old Bond Street, and continue it across a full map of London, it will bring your eye to Peckham; and it was from Peckham that Gibson did his name.

He was a son of a footman.

It is now a solemn question whether Bond Street is conscious of the existence of the remote southeastern suburb. But it was Sir Thomas who built Bond Street in the year 1700. He was then controller of the household of Queen Anne.

## STOCKS SHOW GAINS TOWARDS THE CLOSE

Losses Sored on Early Foreign News  
Were More Than Recovered  
on Liberal Buying

NEW YORK, Aug. 31.—Constructive  
factors were at work in today's stock  
market with the result that prices stiffened considerably after an  
initial period of heaviness. Trading, however, was of the usual quiet, pre-  
holiday character.

Morning paper reports of warlike  
preparations on the part of Italy  
against Greece and predictions that  
Governor Pinchot's proposal would  
be accepted by both parties to the  
conflict were dispelled, brought a  
fairly large volume of selling orders  
into the market at the opening, the  
recessions running as high as four  
points. These offerings were well ab-  
sorbed, however, and within half an  
hour the market was pointed upward  
again.

The rally did not assume very extensive proportions until after the  
official announcement of the re-  
sumption of diplomatic relations be-  
tween Mexico and the United States  
was followed by moderate buying  
despite the fact that the stocks of  
companies interested in Mexican  
properties and in the bonds of the  
Mexican Government itself.

This announcement, which was fol-  
lowed by a report that the miners had  
ratified the final plan as a basis  
for further negotiations, indicated that the  
operators, while objecting to the proposed  
one per cent wage increase, would accept it  
on condition that an agreement  
putting it into effect over a long term  
of years be effected, imparted a firm  
tone to the rest of the list.

Dunphy's bond market showed  
"signs point more clearly to a gradual  
breaking away from the Summer lull  
in some branches of business," adding  
that "while conservatism con-  
tinues to govern most operations,  
there is some hastiness induced by pre-  
valing unusual interest in forward  
requirements, and a return to  
September is expected to bring about  
a further quickening of demand."

Bradstreet's sets forth that "there  
are more cross currents visible in  
trade, crops and industry, and busi-  
ness conditions have re-  
flected the desire to take the most  
of the last week of the vacation season,  
but the more cheerful tone re-  
cently noted continues unabated."

Call money opened at 5½ per cent,  
but dropped to five before the close.  
Time and commercial paper rates  
were unchanged.

Foreign exchanges receded slightly,

## WHEAT FIRMER ON IMPROVED DEMAND

Winnipeg Market Shows Strength  
With Prices Well Maintained  
Throughout Session

WINNIPEG, Aug. 31.—Under the influence  
of a better demand today the wheat market  
with prices showing as much  
as 1½ cents improvement.

Toward the close prices eased off, but the  
general tone was strong, undeterred  
throughout. Prices were up 4½  
cents higher, with October preceding the  
heat gain.

## Marine and Transportation

### Plan Big Craft for Rupert-Alaska Run

#### U.S. Merchant Marine Is Under Discussion

WASHINGTON, Aug. 31.—The Shipping Board was moving forward today with its plans for indirect Government operation of its merchant fleet through subsidiary corporations, the legality of the plan which it was indicated President Coolidge would request from the Attorney-General.

This was the status of the merchant marine question after a two-hour conference at the White House last night between the President and members of the board. While it was made plain by Chairman Dawson that the majority of the members were reached at the conference, the chairman, who has sponsored the plan for operation of the fleet through a number of subsidiary corporations, owned and controlled by the board, appeared well pleased with the result.

#### SPECIAL RATES TO CANAL PASSENGERS

#### NEW PANAMA PACIFIC LINE MAKES ARRANGEMENT

Reduced Fares Quoted to San Francisco From Victoria—Cheap Connection With Liners

An arrangement has been completed between the Panama Pacific Line (Admiral Line) whereby special reduced fares will be quoted from Victoria, Seattle, Tacoma and Portland to San Francisco, and vice versa, in connection with bookings by the Pan American Lines, which reduced fares will make the trip through the Panama Canal to and from the Pan American especially attractive one to travellers from the Pacific Coast, as they can, if they so desire, arrange stopovers at Los Angeles, Cristobal, Balboa or Panama, where the steamers will do the route.

The Panama Pacific Line, operated by the International Mercantile Marine Co., will inaugurate the service with the well-known and luxurious steamers Kroonland, Finland, and Manchuria, the first sailing being the Kroonland from New York October 18, and from San Francisco December 10, with regular sailings fortnightly thereafter. The trip will be made in seventeen days, including the stops at different ports of call. Full particulars regarding the service can be obtained from the Company's office, 619 Second Avenue, Seattle, or from local steamship and railroad agents.

#### C.G.M.M. REPORTS

The C.G.M.M. steamer, Canadian Prospector, sailed from Sydney, August 27, bound for British Columbia. The Canadian Rover arrived at San Pedro, Tuesday, from Ocean Falls. The Canadian Volunteer reached Portland from Ocean Falls, Thursday.

#### SAILS FOR SYDNEY

The steamer, City of Vancouver, left Astoria for Sydney, New South Wales, Wednesday night, with a full cargo of lumber.

National Railways Consider Tourist Hotel, Fast Ship Service to Orient, Grain Elevator for Northern Port

PRINCE RUPERT, Aug. 31.—Mr. G. Dawson, president of the board of directors of the Canadian National Railway, is home from a trip to Montreal and announces that plans and specifications are being prepared for the construction of a new steamship larger than the Prince Rupert and the Prince George to ply from Prince Rupert to an Alaska port.

Mr. Dawson also stated that with a view to further development of the tourist traffic in this section of the Province, plans for the erection of a tourist hotel here are under consideration.

Among future developments, which Mr. Dawson says are contemplated, is a fast steamship service between Prince Rupert and the Orient. He is convinced that a grain elevator here will become an actuality, probably not in time for this season, but certainly for next season.

#### SHIP BUNKERS TWICE AS RESULT OF FIRE

Elswick Park Finally Gets Away to Sea After Two Visits to Union Bay for Fuel

The steamer Elswick Park, after being at Port Alberni, and out to sea last night at 8 o'clock, bound for the Orient. The vessel lost several weeks as the result of the fire in her bunkers at the West Coast port, as it was necessary not only to remove nine hundred tons of coal before the trouble was remedied, but subsequently to take the ship to Union Bay for a much greater quantity. It was in the vessel's old bunker coal that the fire broke out.

At Alberni she loaded with logs and lumber for Japan. She is a British bottom, under charter to Andrew Weir & Company.
